

SUKINO HEALTHCARE — PAEDIATRIC OPD PRESCRIPTION

Patient: Aarav Gupta, 4 years M, weight 16 kg | UHID: SK-61190

Date: 22 March 2026 | Consultant: Dr. S. Krishnan, MD (Paediatrics)

Diagnosis: Acute follicular tonsillitis with fever.

Rx (weight-based dosing, 16 kg)

- Syp. Amoxicillin + Clavulanate 228.5 mg/5 mL — 5 mL ORALLY, THRICE DAILY after food, 5 days (approx. 40 mg/kg/day of amoxicillin).
- Syp. Paracetamol 250 mg/5 mL — 5 mL SOS if temperature > 100.4 F, maximum 4 doses in 24 hours (15 mg/kg/dose).
- Warm saline gargles / steam inhalation twice daily.

Nursing notes:

- Shake the suspension well; refrigerate after reconstitution, discard in 7 days.
- Watch for rash or loose stools with the antibiotic.
- Maintain hydration with ORS if oral intake reduces.

Review after 3 days or earlier if fever persists beyond 48 hours.
